

I'm coming back to you

W:I'm coming back to you

no more time is needed to pass without you

then I must tell you too that you're my love

for sure

I'm coming back to you

M:I'm coming back to you

no more dreams I have apart from you

I need to feel you close to me and tell

you that for sure

W-M:I'm coming back to you

M:I can't forget you, and you always be in my mind

I will be from now beside you and

W-M:whole of my life

this is the reason why

I'm coming back to you

I'm coming back for ever

and all I have to say

is you to hold me now like never

I'm coming back to you

W:I'm coming back to you

the life doesn't make any sense to me without you

M:you are everything for me

W:you can find your name in my soul

and W-M:I'm gonna give you more

M:Don't look behind, leave back the tears of the pain in your eyes

from now on we'll be together and

W-M:never be apart

this is the reason why

I'm coming back to you

I'm coming back for ever

and all I have to say

is you to hold me now like never

I'm coming back to you

I'm coming back for ever
